

Technical Services in
Startup Library Culture

Raymond Pun
Alder Graduate School of Education
raypun101

The slide features a background of a colorful halftone pattern transitioning from purple to orange. The text is centered and uses a white sans-serif font.

2

“ Think of several words relating to the word "startup."

Is "startup" a good or not so good blend with academic/library cultures, why or why not?

The slide has a dark blue background with a halftone pattern on the right side. The text is white and includes a quote icon.

3

“ What are your **first priorities** if you have nothing to start with?

How would you plan this through? What scenarios can you take back from this experience as a **technical services librarian**?

Where/how do you begin to purchase e-resources?

The slide has a dark blue background with a halftone pattern on the right side. The text is white and includes a quote icon.

“ Has anyone worked in public services before?

If so, what are your experiences having transitioned to technical services?

Do you establish workflows differently based on your past experiences as a public services librarian?

Some Ideas and Actions Moving Forward

Alder Graduate School of Education

Brand new-nonprofit school focused on K-12 graduate education

All graduate students wanting to be public school teachers/educators

Startup Culture

Library had no website and only Overdrive before October 2012.

Things have changed now: authentication process, SECLC membership, website, and piloting interlibrary loan process

THANKS!
