I am currently working on suggested revisions to the LHRT Officer's Handbook. I expect to be finished within a week, which will give the Executive Committee sufficient time to look them over and discuss them at the annual meeting, if necessary. Once we've agreed on revisions, I can make them myself or one of the member-at-large could do so. Also, we'll need to add page numbers to the table of contents to make it easier to navigate.

The copy of handbook that I have says "Revised June 2010." I saved the file as "LHRT Handbook 06-28-2012." Does anyone have a more current version? One thing my revisions don't address and that we should probably discuss is a way of keeping track of versions. Also, I think we discussed last year placing parts of the handbook on the LHRT pages, in order to be more transparent to our membership. Is there still interest in that? Currently the by-laws and constitution can be found under the Governance link.

Respectfully submitted,

Tom Glynn  
Past Chair
