Resources for College Libraries (RCL), the Choice/ACRL bibliography of essential titles for undergraduate teaching and research, seeks experienced library subject selectors and faculty to serve as peer reviewers.

We are currently seeking referees for the following **RCL Social Science and Science + Technology** subjects:

Agriculture • Anthropology • Astronomy • Biology • Business Administration • Chemistry • Communication and Mass Media • Computer Science • Economics • Education • Environmental Sciences • General Science • Geography • Geology • Health Sciences and Medicine • Law • Linguistics • Mathematics • Physics • Political Science • Psychology • Sociology • Sports and Recreation • Technology and Engineering

The RCL peer review is one-time professional service and a capacity-building exercise that strengthens collection development skills, informs local projects, and improves subject expertise. See FAQs at: https://www.choice360.org/blog-post/rcl-call-for-reviewers-2022/

Reviewers are tasked with assessing the subject collection comprehensively, providing recommendations for editorial improvement and constructive feedback on how well the core title selections support the college curriculum. The RCL peer review can strengthen collection development skills, inform local projects, and build subject expertise. This is a one-time professional service opportunity that can be performed remotely.

To apply, submit a current CV and a brief description of your qualifications, particularly developing or evaluating core collections and/or teaching in the subject area to Anne Doherty, RCL Project Editor (adoherty@ala-choice.org). Preference will be given to those who apply by May 20, 2022.

We are committed to pursuing equity and inclusion and seek reviewers with diverse racial, ethnic, gender, sexual, and disability experiences. Learn more about RCL at: http://www.choice360.org/products/rcl.

If you have additional questions, contact the RCL Project Editor at adoherty@ala-choice.org.
